WHY WE DON'T GET GOVT. JOB?

Remember, there is no provision in India where you can get a Govt. job by showing your certificates. Even after degree you will have to face the selection procedure of Govt. which has Written Exam, Interview, Physical Test and Medical Check-up. All these are not at all taught in degree syllabus, the questions being asked in job exams are entirely different to degree syllabus. Therefore if you want a Govt. job then you will have to take training for it.

WHAT TO STUDY AFTER 12th?

If you are studying for Govt. job then join in training instead of degree, because maximum Govt. jobs are available for 12th pass students, or else if you join only degree/higher studies you will not be getting job, because generally colleges deposit your original certificates and return only after completion of degree by then you are over aged for 80 to 90% Govt. jobs. However 10 to 20 % Govt. jobs are still remaining for which also you will have to take training. Remember.. training does not mean part time..!
